

Communication with the Office “Patient Portal”

After completing our annual patient satisfaction survey, your recommendations for better communication have been heard!

We are excited to offer all our patients an improved experience and additional services to help serve you better and value your time while in our office. Our new patient portal is EASY to use and is the way will be able to communicate effectively and quickly.

Some of these services to benefit you will include:

- no more check out. Your visit summary goes to your portal
- no more lab slips or Imaging orders, you will get them via your portal
- your test and lab results deliver to your portal
- Access to your medical history (labs, diagnostic imaging and medical history)
- The ability to send your own medical records or results to a specialist
- Access to communicate online with the office and your provider, with much FASTER results
- Access to paperwork online, like FMLA or NoFault paperwork
- Refill on your medications
- Review your upcoming appointments and appointment history
- request updates to your demographic information, change address or phone number
- On-line bill pay

You have been sent an email to enable your Portal.

For your security you will be asked to choose a photo and a few personal security questions while setting up your username and password.

Keep this information handy as it will be how we communicate with you.

Your visit summary, any orders, your next appointment FROM TODAY WILL BE will all be on your portal for you TOMORROW.
